Background:

Youth Parliament of Pakistan (YPP) is a non-profit, non-political, and non-religious organization. The main objective of YPP is to foster and transform talent and excellence of adolescents and youth of Pakistan into tangible action and community service.

Project Title: Empower Youth for Work

Empower Youth for Work promotes a positive enabling environment for youth, especially young women, to thrive, achieve their potential and contribute to their community. The program focuses on communities hardest hit by climate change.

There will be better economic prospects through improvements in the job market, better support and opportunities for youth entrepreneurs; access to better training that enables them to benefit from these opportunities, including ‘soft’, technical and vocational training; an improved social and political enabling environment that recognizes the contribution youth can make to society and the economy. We propose to launch an integrated, innovative program collaborating with stakeholders in private, public and civil society sectors to create new, improved, sustainable models for youth inclusion in employment, training, youth group support, business development services and access to finance; community and mass media campaign activities designed to change norms and policies that hinder opportunities for youth.
